

# JOBY® gorillapod®

Get the perfect picture!®

## PRODUCT OVERVIEW

The Original Gorillapod is the lightest and most versatile camera tripod available today. Featuring over two dozen flexible leg joints that bend and rotate, the Gorillapod will firmly secure your compact digital camera to virtually any surface, allowing you to get in the picture and become part of the memories.

The Gorillapod is the ideal camera accessory for photographers on-the-go. Throw it in your pocket or backpack and you'll be ready for your next adventure! While the Gorillapod serves all the functions of a traditional camera tripod – steadying your camera under low-light conditions, taking timed group shots, etc. – it is the only tripod malleable enough to provide you with the perfect shot while wrapped around a tree branch, hanging from a pole, or perched on a jagged rock. The possibilities are endless!

## PRODUCT FEATURES

- **Flexible, wrappable legs** allow you to secure your compact digital camera or mini video camera to virtually any surface.
- **Over two dozen leg joints** bend and rotate 360°.
- **Rubberized ring and foot grips** provide enhanced stability in difficult terrain.
- **The slim-line quick-release clip** stays connected to your camera and snaps into the Gorillapod for instant setup.
- **A lock ring** provides extra security to ensure your camera is safely attached.
